Amount of Ferrosal Junior Oral suspension	Iron dose
0,1 ml	1 mg
3,0 ml	30 mg

RECOMMENDED DAILY DOSE OF FERROSAL JUNIOR

Age	Dose (ml)	Frequency	Total daily dose
0-6 months	0,6 ml	Once daily	0,6 ml
7-36 months	1,0 ml	Once daily	1,0 ml
4-6 years	0,7 ml	Twice daily	1,4 ml
7-11 years	1,0 ml	Twice daily	2,0 ml

Gradual and slow release of elemental iron through the intestinal wall makes it well tolerated.
